Clinical Programs & Services

Institute of Transplantation, Hepatobiliary
Diseases and Liver/Pancreas Diseases (202) 444-3700

This service provides comprehensive treatment for pediatric and adult patients with end-stage renal disease (ESRD) and end-stage liver disease (ESLD). In addition to performing surgery for benign and malignant tumors of the liver, bile ducts and pancreas, surgeons specialize in liver transplantation, intestinal (small bowel) transplantation, kidney transplantation, pancreas and liver surgery, laparoscopic surgery, combined kidney and pancreas transplantation, and vascular and peritoneal catheter access surgery for patients requiring either hemodialysis or continuous ambulatory peritoneal dialysis (CAPD). The Institute of Transplantation is one of only a handful of programs in the United States that perform small bowel transplants and the only such program in the mid-Atlantic region. Primary patient care for all patients is given by the surgeons along with a specially trained staff that includes nurse practitioners and coordinators.

Director: Lynt B. Johnson, M.D.

Contact name: Sarah Howard

Appointment line: (202) 444-3700

Appointment hours: Monday – Friday, 8:30 a.m. – 3:00 p.m.
